Thanks for making scenes like these possible

New Programs in 2017

Samson Project: To reach middle school and older elementary students, this program helps students in their physical development. At the same time they are being taught that Samson's strength came from a reliance on God and not from his own efforts.

Fall Baseball/Softball: About 60 students participated in this program. Students and parents considered the program a success. Volunteers helped to install new fences and benches on the campus ball field.

Youth Christmas Musical: "Christmas Hang-up" will be performed at the Reformed Churches in McKee and Gray Hawk in December.

Part of our continuing efforts to bring the message of the Gospel into our community.

We are in need of more volunteer work groups in 2018. Contact Tommy Miracle for available dates.

Samson Project

Fall Ball

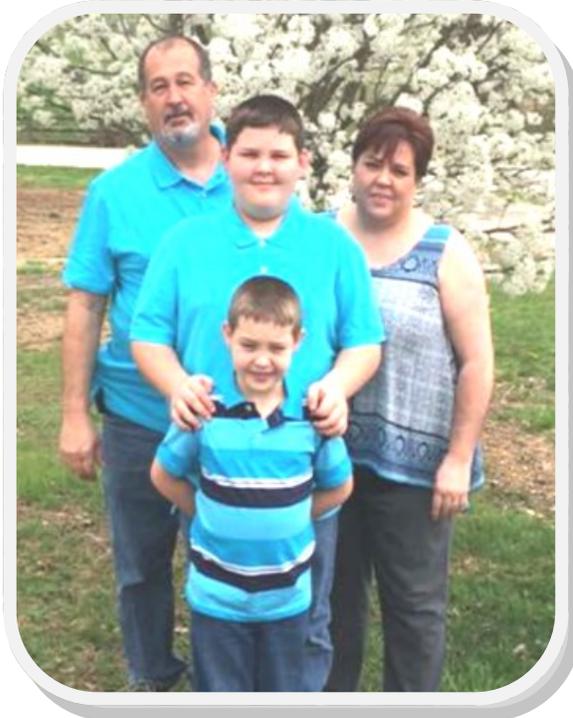

Volunteers from Northwestern College installing a ramp to an area home.

Please continue to pray for us as we strive to impact a broken world with the love of Christ.

Echoes From The Hills

Meet our new Leader

Pictured above is Tommy with his wife, Wanda, and sons, Calvin and Landon.

On April 15, Tommy Miracle took over the reigns of our organization as Manager of Campus Operations. Tommy is a Kentucky native. He got involved in construction at the age of 14 by working on his parents' house. He worked in a factory in Richmond for 23 years. He always had the desire to make a difference in people's lives. Four years ago, he jumped at the opportunity to work with our volunteer groups in rehabbing homes and also on campus projects. He will continue to be very involved with the volunteer groups. He is, "excited to work with a great staff as we move forward into an unknown, exciting future. I am amazed to see how God uses what we think as little to do great things." Tommy enjoys working with the youth football teams and on Sundays you can find him in the audio/video room at the Gray Hawk Reformed Church where he also serves on the Consistory.

Thank You

Jake Moss, our former director, is staying involved as our development director. In his part time capacity he will continue to communicate with our constituents. Jake is grateful for the opportunity to stay connected with our great supporters. He and his wife, Sharon, are now residing in Burnside, KY (75 minutes southwest of campus).

Building Updates

The clock on the top of Lincoln Hall is now in working order. Without electricity in the building it is difficult to navigate up the ladders to wind the clock. Putting in the electrical and heating/cooling units are next on the to do list for the building.

The new addition on Hacker Gym recently passed the heating/AC inspection. Volunteers are pictured here putting on some of the finishing touches in the hallway to the addition. Pouring of the front steps will complete the addition. Then we can start on converting the old restrooms into a physical fitness center.
